SHIFT / HAPPENS

SOUND MATTERS

The AmpCoil™ is a modern, intelligently designed, easy to use wellness tool that supports physical, emotional and mental wellbeing. AmpCoil helps to restore and maintain the "inner ecology" that your body needs to function properly.

AmpCoil delivers sound frequency through a powerful amplifier into a customized coil based on Tesla technology, creating an effective, targeted, pulsed electromagnetic field that penetrates deeply into the body. Human bioenergetics rapidly return to a balanced and harmonized state that nature intended.

NURTURE YOURSELF

JUST PRESS PLAY

Combining an AmpCoil voice analysis biofeedback with a powerful PEMF system, the AmpCoil delivers personalized journeys that support healthy bio-terrain balance. This balance will allow the body's natural healing mechanisms to work more effectively.

Simply hold the coil to the body and open our easy to use app BetterGuide™ to start sound Journeys from a large repertoire of nourishing and safe tones to neutralize the stress, noise and distortion in your life. Sit back and relax.
